

PowerView® Automation

Smart blinds that simplify your life

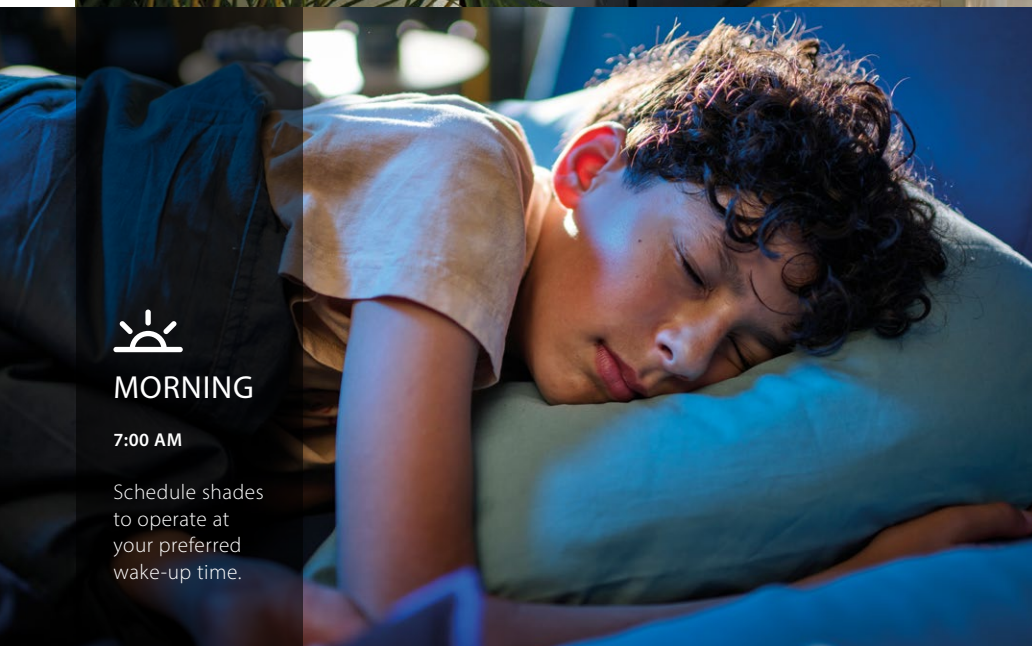

Luxaflex®

When your shades sync to the rhythm of your life, everyday living is more beautiful, comfortable and effortless. PowerView® Automation is the industry's most innovative technology. It moves your Luxaflex® window coverings automatically, whether you're home or away, according to schedules that you set.

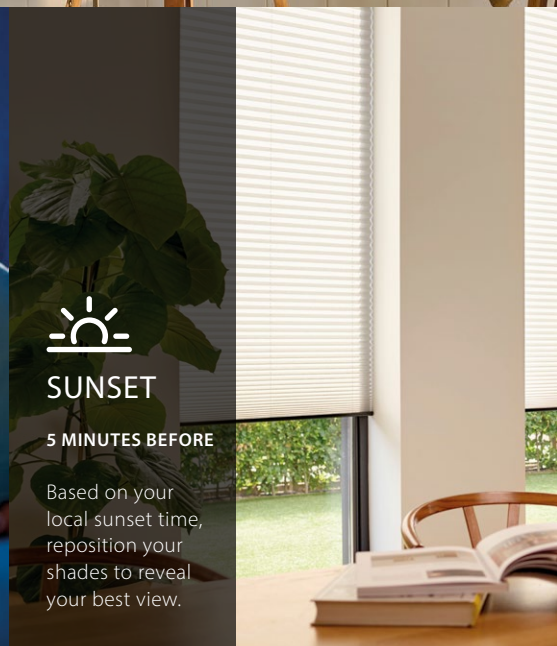

Live Beautifully with PowerView® Automation

MORNING

7:00 AM

Schedule shades to operate at your preferred wake-up time.

SUNSET

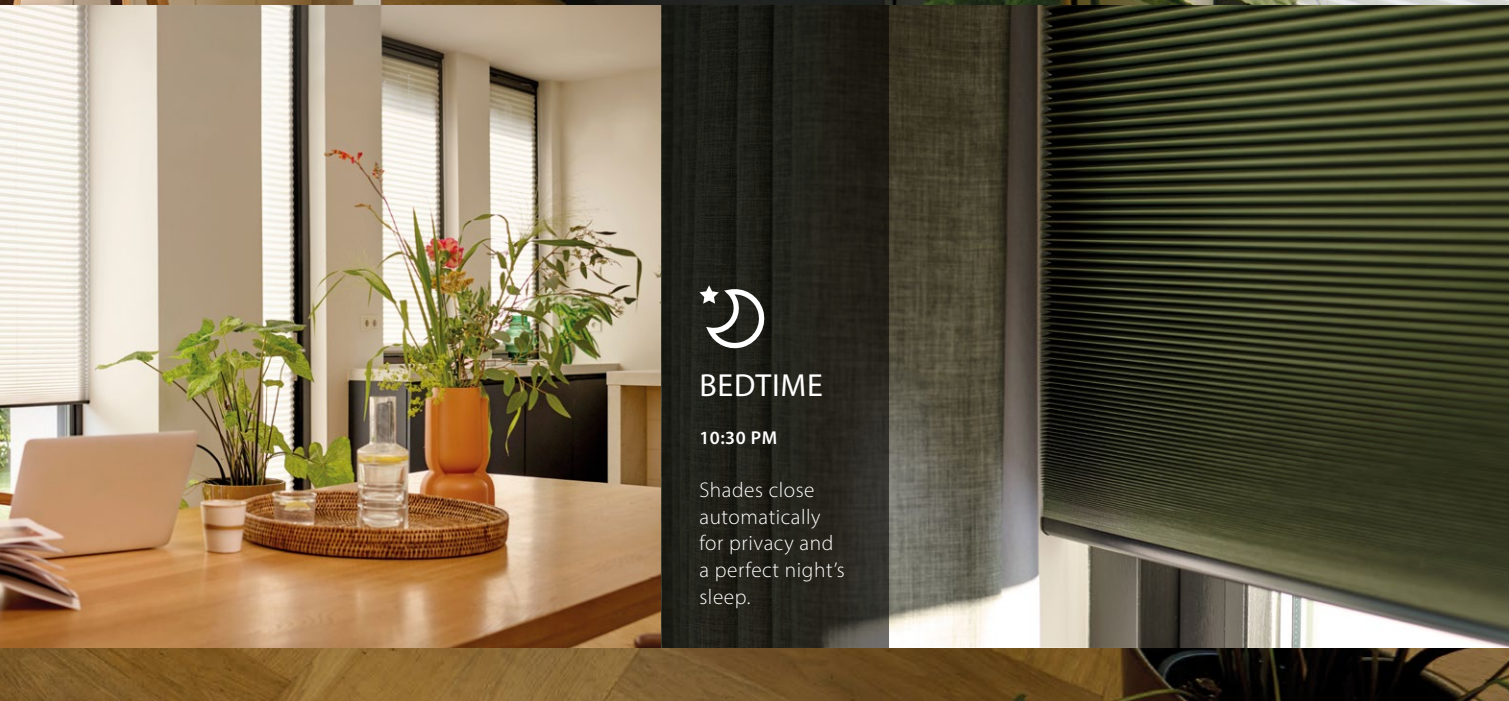

5 MINUTES BEFORE

Based on your local sunset time, reposition your shades to reveal your best view.

AFTERNOON
2:00 PM

Shades adjust to protect
furnishings from harsh
midday sunlight.

BEDTIME

10:30 PM

Shades close
automatically
for privacy and
a perfect night's
sleep.

**Perfect lighting,
energy efficiency,
everyday convenience**

it's all delivered automatically with
PowerView® Automation.

The key features

Incredible convenience

Morning, noon and night, your shades can move automatically to create the perfect light and ambience within your home. The PowerView® App makes it easy to schedule shades to move to your preferred positions.

Effortless control

Busy in your home office, or cosy on the couch? Use your voice to move your shades with your favorite voice assistant. PowerView® also works with many of the home automation systems you already know and love.

Privacy and security

PowerView® gives you peace of mind. Scheduled operation ensures your shades are closed when you want privacy and makes it appear that you're home when you're away.

Energy efficiency

Your automated shades can open and close with the sun's movements, making it easier to save on costs to heat and cool your home.

Child and pet safety

Feel at ease knowing that what matters to you most is protected. All PowerView® shades feature cord-free operation, so they are safer for homes with kids and pets.

Flexible power options

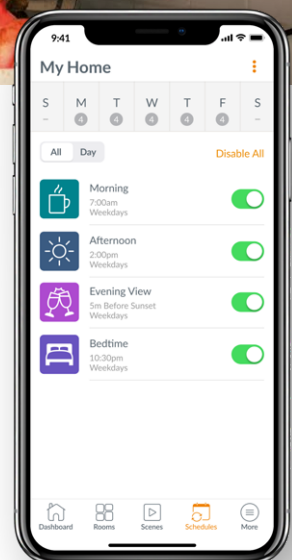

Luxaflex® PowerView® shades are available with a variety of power options, including a rechargeable battery and hardwiring capability.

POWERVIEW® APP

Conveniently control your window treatments from your tablet or smartphone. Built on the extremely reliable Bluetooth® Low Energy radio frequency (RF) protocol PowerView® Automation features real-time two-way communication between the shades and the sytem. With the PowerView® App, you can send shades to specific

positions with just the swipe of a finger. Operate your PowerView® window coverings individually, by room or throughout the home using Scenes and Schedules so your shades move automatically to your preferred positions. PowerView® does all the work for you - on the days and timing that perfectly fit your lifestyle.

PowerView® Gateway

Planning to have shades that are spaced throughout a large home? An optional gateway provides additional range and reliability to ensure all shades operate when you want them to. With the gateway you can also control your shades with your favourite voice assistant or home automation system.

With the Gateway you virtually control your entire home from anywhere in the world. Move individual shades, activate Scenes, create or edit Schedules and more!

Pebble® Remote

Use the optional PowerView® Pebble® Remote to quickly adjust any single or group of PowerView® shades with just a push of a button. Enter a room and, like switching on a light, your shades operate your command with the stylish Pebble® available in 10 different colours. The Pebble® is the perfect union of form and function, both simply elegant and elegantly simple.

Connect with other smart home systems

The PowerView® system is designed for compatibility with most home automation system technologies on the market today, as well as Apple® iOS and Android™ tablets and mobile devices to expand the function of your wireless home. Integrate shades with a variety of third-party control devices and systems through cloud-to-cloud and IP integration. PowerView® Automation works with Google Assistant, Amazon Alexa and Apple® HomeKit** to control your shades with the sound of your voice.
